

## Testamur Security Measures – Fact Sheet

As of 2014, Alphacrucis College has incorporated measures into the printing of Higher Education testamurs to enable verification of originality. Details on these measures can be found below:

### 2014:

- Testamurs are uniquely numbered with a control number. This number can be confirmed with Alphacrucis College.
- Testamurs contain a 'fine print' line which reads 'Alphacrucis College'. This text can only be seen under a magnifying glass and will not appear on a copy.
- The Alphacrucis logo on the back of each testamur is printed using thermo-chromatic ink. Rubbing the logo will cause it to temporarily disappear or fade.
