

EFFECTIVE LEADERSHIP AND MINISTRY REQUIRES GOOD GOVERNANCE

LAUNCHING GOVERNANCE TRAINING:
A Partnership between ACC National Office, Alphacrucis College,
and ACS Financial Services.

ALPHACRUCIS COLLEGE

Good governance provides the foundation for leadership and fruitful ministry. It means to better decisions and gives people more confidence in the integrity of your organisation.

The costs of getting it wrong in our complex and fast changing regulatory environment are high. Consequences can include:

- your organisation and its leaders being distracted from mission,
- incurring heavy legal costs and penalties,
- losing taxation status and being able to pay staff in a tax effective manner, or
- losing your property through governance failures.

Worst of all, governance failures destroy trust in your organisation, undermining your ministry, and the ministry of others in our movement.

This online governance training comprises ten approximately one hour video modules, with leading experts from Alphacrucis, ACS Financial Services, and Prolegis Lawyers. You will receive a certificate on completion.

Competitive pricing for individuals, churches, and other organisations of all sizes.

It is available as an option with the ACS Titus Governance Software Package
