The Bachelor of Education (Secondary) – BEd(S) – is a pre-service teacher education program, designed to meet the Graduate Teacher Standard Descriptors – professional knowledge, professional practice and professional engagement at undergraduate teacher level, equipping them for provisional registration as teachers in high schools. It provides a core of knowledge and understanding and pedagogy for the student’s area of specialisation and professional experience. Candidates will complete two designated teaching specialisations from the following learning areas or subjects: The Arts, English, Health and Physical Education, Humanities and Social Sciences, Mathematics, Digital Technologies, and Religious Studies. Through a university partnership, students may also choose to do advanced specialisation subjects or specialisations from other disciplines. In addition, students will develop general skills in critical thinking, problem-solving, teamwork, and communication, and will be equipped with theoretical knowledge in curriculum development and pedagogy, as well as skills in education areas, to equip them for classroom teaching.

The purpose of this Level 7 Bachelor coursework program is to integrate a well-developed foundation in educational knowledge, with a coherent theoretical understanding and professional experience framed within a Christian ethic of human reciprocity. In this sense, the BEd(S) acts as an integrated environment for the preparation of students who wish to develop skills for a diverse range of educational applications.

The course builds on AC’s established expertise in producing graduates who embody integrity, professional knowledge, and social skills, making a positive contribution to society. It develops the professional skills necessary for students to teach in their specialist area and trains students in how to engage with communities of practice for ongoing support throughout their careers.

Graduate Pathways
Students who have successfully completed the Bachelor of Education (Secondary) may progress further along the pathway toward AQF Level 8 and 9 postgraduate courses of study at AC. Direct entry into all postgraduate pathways is not guaranteed. Graduates are advised to contact the Student Support Team further information on the eligibility requirements for these courses of study.

Career Opportunities
Graduates of the Bachelor of Education (Secondary) may find employment in schools (faith-based, government and non-government schools), not-for-profit and mission-focused organisations, community service-orientated positions, and positions that require research skills, academic knowledge, practical experience and critical thinking. This includes careers such as corporate trainers and development managers, curriculum consultants and developers, educational administrators, educational researchers, government policy advisers, community educators, education publication writers or editors, or education policy analysts.

Work-Integrated Learning
Work-Integrated Learning will be undertaken through Professional Experience Placements. These subjects seek to create a direct linkage between the learning, skills and values engaged in lectures, and the reflection which occurs when these are applied in real-life settings. These work-based training subjects comprise of instruction, academic assessment and a placement in a workplace for each subject. Organisation and placement will be conducted by the AC Professional Experience Coordinator. Please note to register as teachers in Australia, students are required to do fifty percent of their professional experience in Australia including their final professional experience placement.

To qualify for award of the degree of Bachelor of Education (Secondary), all teacher education students will complete 4 subject (40 credit points) of Professional Placement:

1. EXP211 Professional Experience 1
2. EXP212 Professional Experience 2
3. EXP311 Professional Experience 3
4. EXP312 Professional Experience 4

In addition, the teacher education student, once admitted into the course, may apply for a Clinical Teaching Module (CTM) placement. This is a mode of study that places the student, typically one day a week in a host school under a Host Coach(es), where they can practice their new skills and understanding without the pressures of assessment. They are encouraged to seek modifications to many of their subject assignments for their CTM context and so create synergy with their CTM commitment and their academic study.

For further information related to Work-Integrated Learning please see the Professional Practice Handbook on Moodle or contact the Program Director or Professional Experience Coordinator.
